Pranjal Bhown

Interaction Designer
M: +91 9929290489
E: pranjalbhown@gmail.com
pranjalbhown.com

I like to work at the intersection of art, technology, and psychology. I think beautiful solutions arise when systems thinking combines with a user centred approach. Human interactions with objects, spaces and with each other fascinate me. I strive to work on projects which reach the masses and create positive, lasting impact. I would love to connect with you.
